ABOUT ME

Passionate web developer skilled in HTML, CSS, Bootstrap, JavaScript, ES6, React, PHP, and Python (Django). Eager to apply and expand my expertise in a dynamic, professional setting.

PROJECT

Global Beauty and Care Brands Website

Created a responsive website for Bendemrane Distribution, showcasing their global beauty and care brands.

Salpicon Restaurant:Landing Page Design

The page features a captivating introduction, seamless navigation, and responsive design, creating an inviting and engaging experience for visitors.

Interior Decoration Website

Created an interior decoration website with a stylish front-end and Django back-end. It showcases products by category, allows easy ordering, and includes admin tools for managing orders and products.

Academic Website For ENSAH

Developed an academic website for ENSAH with an elegant homepage (HTML/CSS/Bootstrap/JS) and an E-connect space (PHP). Tailored for students, professors, and administration .

Dynamic Flower Purchasing Web Page

Designing an intuitive user interface for browsing floral arrangements and managing orders. Ensuring visually appealing user experience while maintaining efficient server-side functionality.

Restaurant Management Application in C

Created a C-based restaurant management app with graphical interfaces and file management. Features include menu navigation, order placement, table reservations, and admin tools for managing menus, employees, and inventory.
